

LIVERY BRIEFING

October 2021

All Change at the Livery Committee - Election of Chair and Deputy Chair

At the Livery Committee meeting in Guildhall on 9 September last, Philip Woodhouse, Past Master Grocer, was elected to the Chair, having served as Deputy for the previous three years, and Julia Sibley, MBE, Past Master Innholder, was elected as the Deputy Chair.

Message from the Chair and Deputy Chair

Dear Liverymen,

We would like to take this opportunity to introduce ourselves.

Philip: I spent almost 40 years working in the City of London, mostly as a trader. When my career gave me the time and opportunity to become more involved in civic matters, I, like many Liverymen before me, stood for and was elected as a member of the Court of Common Council, in my case to the Ward of Langbourn in 2013.

Julia: I became involved with the Innholders in the late 1990s and spend most of my time working for a grant-giving charity for the hospitality industry. There is, therefore, great synergy with the Innholders and their charitable giving in particular. I was Master of the Company in 2015/16; the first lady to hold that Office in the Company.

Together, we hope to continue to develop the co-operation between the City of London Corporation, including, of course, Mansion House, and the various Livery Companies and Guilds over the coming years.

The exceptional website, now in its second year and supported by most Livery Companies, goes from strength to strength. We would love there to be 100% support. During last month (September), over 3,000 visits were made to the website and over 10,000 pages looked at. Given the growing interest in the site we would welcome any news items you have to share with your fellow Livery Companies.

As many of you know, one of the Livery Committee's roles is to manage the running of Common Hall and recently, we held the elections of Lord Mayor Elect, Alderman Vincent Keaveny, and the two new Sheriffs: Alderman Alison Gowman and Alderman Nicholas Lyons.

Your Livery Committee and the Pan Livery Initiative have made significant progress in the last four years, whilst focusing on different activities but with the same goal, and we are committed to continue working closely together, building on these achievements for the collective good of the Livery.

Victoria Russell, a Past Master Arbitrator and Past Master Constructor, did so much for the Livery as Chair of this Committee over the last three years. The members of the Committee thanked her, on behalf of all Liverymen and the text of that Vote of Thanks is shown on the [Livery Committee website](#).

We would also like to say a huge "Thank you" to those whose term of office on the Committee has drawn to a close, namely to Robin Booth (Clothworker), David Cole-Adams (Tylers and Bricklayers) and Ian Seaton (Girdler), for their hard work and support over the years.

Please do contact us if you have news items for the website and we also commend to you the various courses that are run for you, details of which can be found on the [courses page of the Livery Committee website](#) as well as being listed below.

With very best wishes,

Philip Woodhouse and Julia Sibley

Clean City Awards Scheme and Recycling Events

The City of London's Clean City Award Scheme (CCAS) opened for applications on 13 September, meaning that any CCAS member can apply for an award in the following categories: Plastic Free City; Resource and Circular Economy; Communication and Engagement; Air Quality and Climate Action. The theme for this year's Chairman Cup is 'Embedding environmental and sustainability issues to install a resilient recovery post the COVID-19 outbreak'.

The CCAS is open to all businesses, Livery Halls and Companies within the Square Mile and it's not too late to join the Scheme. If your Company is striving to be more sustainable, align with the Climate Action Strategy or wants recognition for the great work already being done, the CCAS is for you.

Deadline for submission of awards is 15 October. In addition to applying for awards, CCAS members will also receive a monthly e-newsletter, invites to regular meetings, access to resource packs and an invitation to the annual luncheon award ceremony. For further information please visit the [CCAS London website](#).

The City of London Recycling Team will shortly be re-starting their residential and community events to encourage residents to waste less by encouraging and supporting residents to keep items in use for longer and be more sustainable. This could be through providing residents with skills such as repairing clothes, repairing electrical items, cookery demos and much more. Is your Company able to share skills (all skills welcome!) with the Recycling Team and residents to help them achieve this? Would your Company be able to provide a workshop, training or skills, whether online or in-person? Maybe your Company would like to provide a space for residents and the wider community to get involved?

If you would like to find out more about how your Company could get involved with residents through waste reduction and improving sustainability, please email the [Recycling Team](#).

The Yorkshire Shepherdess takes part in the City of London Annual Sheep Drive

The Yorkshire Shepherdess, Amanda Owen, swapped the Yorkshire Dales for the day to drive sheep over the river Thames, re-enacting an ancient tradition in support of the Worshipful Company of Woolmen's Charitable Trust and Lord Mayor's Appeal.

Best-selling author of four books and star of Channel 5's "Our Yorkshire Farm", Amanda swapped her 2,000 acre hill farm in Swaledale, North Yorkshire, one of the most remote places in England, for the City of London for the day, on Sunday 26 September. Amanda accompanied the Rt Hon the Lord Mayor of London, Alderman William Russell, and hundreds of the City's Freeman, becoming river shepherds for the day as they practiced their ancient "right" to drive sheep over the Thames and into the City.

Now into its 9th year, hosted by the Worshipful Company of Woolmen, the 2021 Sheep Drive and Livery Fair took place on historic Southwark Bridge, which was traffic-free for the day. The accompanying Livery Fair included many Liveries demonstrating their skills from trades, ancient and modern, alongside a range of wool related stalls selling products that showcased the enduring relevance of wool as a sustainable and versatile material. Along with other interactive displays and food and drinks stalls, this was a wonderful family day out over the majestic Thames.
